On Veterans Day 1996, the Vietnam Veterans Memorial Fund unveiled a half-scale replica of the Vietnam Veterans memorial in Washington, D.C., that is designed to travel to communities throughout the United States.

Since its dedication, *The Wall That Heals* has visited more than 350 cities and towns throughout the nation, spreading the Memorial's healing legacy to millions.

And now *The Wall That Heals*, will be coming to Sauk Rapids, MN during the 2015 Benton County Fair.

THE WALL THAT HEALS

The Traveling Vietnam Veterans Memorial and Museum

Bringing The Wall home to communities throughout our country allows the souls enshrined on the Memorial to exist once more among family and friends in the peace and comfort of familiar

surroundings. The traveling exhibit, known as *The Wall That Heals*, allows the many thousands of veterans who have been unable to cope with the prospect of facing The Wall to find the strength and courage to do so within their own communities, thus allowing the healing process to begin.

THE WALL REPLICA

The Wall That Heals exhibition features a half-scale replica of the Vietnam Veterans Memorial in Washington, D.C.

It is approximately 250 feet in length and like the original Memorial is erected in a chevron-shape.

The replica is constructed of powder-coated aluminum, supported by an aluminum frame, and is made up of 24 individual panels, each containing six columns of names. The panels join together to form a nearly 250 foot wide structure.

As on The Wall, the names on *The Wall That Heals* are listed by day of casualty. Beginning at the centerpiece, the names start on the East Wall (right-hand side) working their way out to the end of that wing, picking up again at the far end of the West Wall (left-hand side) and working their way back in to the centerpiece, joining the beginning and ending of the conflict at the center.
